

# Jason Huang

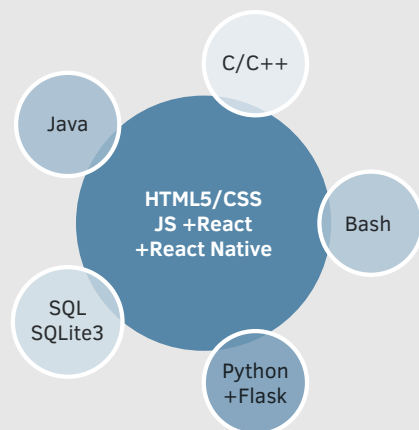

Software Engineer

- March 25, 1999
- New York, USA
- +1(929) – 431 – 2161
- <https://jasonhuang.me>
- [jh2424@cornell.edu](mailto:jh2424@cornell.edu)

## Social Network –

- [in/jasonhuangg/](https://in/jasonhuangg/)
- [github.com/Jasonh90](https://github.com/Jasonh90)

## Programming —

## Skill Level —

- Full-Stack Development
- Web/App Development
- Interpersonal/Leadership
- Teamwork

## Education

Aug 2017 – Present **Cornell University**, College of Engineering **Expected: Dec 2021**  
**B.S:** Computer Science | **M.Eng:** Engineering Management | **GPA:** 3.51

### Relevant Coursework

Human Comp Interaction	Web Design & Programming	Discrete Structures
Operating System	Computer Graphics	UNIX Tools and Scripting
Database Mgmt Systems	Artificial Intelligence	Object-Oriented Coding
Database Practicum	Backend Dev (Mobile)	Functional Programming

## Professional Experience

- June 2021 – Present **Amazon**, NYC SDE Intern
  - Developing a proof of concept framework for team to analyze
  - Identify and made two or one way door decisions
- May 2019 – Present **LineUpApp**, Start Up, NYC Senior Software Engineer
  - Expertise in React, Nodejs, Twilio, AWS services, many other tools
  - Thorough examinations of code reviews of other SDEs to deliver high quality features in an Agile manner
  - Identify new tools and approaches (such as automation) to improve development, velocity and quality
  - Innovate new features of the product via research and communication
- June 2020 – Aug 2020 **Amazon AWS**, Seattle, Remote SDE Intern
  - Lead a project for 3mos from designing to implementation to production
  - Develop, integrate, and deploy Java code including a testing framework for all of RDS to utilize (even products in the future)
  - Adapted quickly to advanced tools private to AWS RDS

## Projects

- Back-End **Runner**  
iOS app with backend server | [github.com/Jasonh90/Runner](https://github.com/Jasonh90/Runner) | Flask
- Back-End **Reddit-Style Backend Project**  
Used MySQL and Docker | Postman | Flask (Python)
- Front-End **Personal Website**  
Solo project | Hosted on Github Pages | [jasonhuang.me](https://jasonhuang.me) | JS/HTML/CSS

## Leadership Experience

- May 2020 – Present **LineUpApp**, Start Up, NYC Co-Founder, Manager
  - Interview, on-board and mentor software engineers of all skill levels
  - Ensure that customers' needs are top priority
  - Mentor 2 SDEs through effective communication and exemplary interpersonal skills
- Jan 2019 – May 2021 **The Cornell Daily Sun**, Ithaca, NY Web Editor, Web Team Manager
  - Interviewed, hired, on-boarded, trained, mentored, and guided 12+ web developers per semester
  - Held training sessions virtually and in person on various subjects
  - Designed an appealing and consistent website for the Daily Sun
  - Recorded and edited videos using Adobe Premiere Pro CC for organizations on and off campus

## Interests

Photography  
Videography  
Adobe CC

Capturing candid and scenic photos with Canon EOS T6  
Recording with Canon EOS T6 and editing with Adobe Premiere Pro  
Creating content and editing with Photoshop and Premiere Pro
