Programming —

Skill Level —

- Full-Stack Development
- Web/App Development
- Interpersonal/Leadership
- Teamwork
- UI/UX/Graphic/Web Design

Education

Jan 2021 – Dec 2021	Cornell University , College of Engineering M.Eng: Engineering Management	Graduated
Aug 2017 – May 2021	Cornell University , College of Engineering B.S: Computer Science GPA: 3.51	Graduated

Relevant Coursework

Human Comp Interaction	Web Design & Programming	Discrete Structures
Operating System	Computer Graphics	UNIX Tools and Scripting
Database Mgmt Systems	Artificial Intelligence	Object-Oriented Coding
Database Practicum	Backend Dev (Mobile)	Functional Programming

Professional Experience

May 2019 – Dec 2021	LineUpAppQ , Start Up, NYC • Expertise in React, Nodejs, Twilio, AWS services, many other tools • Thorough examinations of code reviews of other SDEs to deliver high quality features in an Agile manner • Identified new tools and approaches (such as automation) to improve development, velocity and quality • Innovated new features of the product via research and communication • Interviewed, on-boarded, mentored software engineers of all skill levels • Ensured that customers' needs are top priority • Mentored 2+ SDEs through effective communication and exemplary interpersonal skills	Senior SDE, Co-Founder
June 2021 – Aug 2021	Amazon , NYC • Developing a proof of concept framework for team to analyze • Identify and made two- or one-way door decisions	SDE Intern
June 2020 – Aug 2020	Amazon AWS , Seattle, Remote • Lead a project for 3mos from designing to implementation to production • Develop, integrate, and deploy Java code including a testing framework for all of RDS to utilize (even products in the future) • Adapted quickly to advanced tools private to AWS RDS	SDE Intern

Leadership Experience

Jan 2019 – May 2021	The Cornell Daily Sun , Ithaca, NY • Interviewed, hired, on-boarded, trained, mentored, and guided 12+ web developers per semester • Held training sessions virtually and in person on various subjects • Designed an appealing and consistent website for the Daily Sun • Recorded and edited videos using Adobe Premiere Pro CC for organizations on and off campus	Web Editor, Web Team Manager
---------------------	--	------------------------------

Projects

Back-End	Runner iOS app with backend server github.com/Jasonh90/Runner Flask
Back-End	Reddit-Style Backend Project Used MySQL and Docker Postman Flask (Python)
Front-End	Personal Website Solo project Hosted on Github Pages jasonhuang.me JS/HTML/CSS

Interests

Photography	Capturing candid and scenic photos with Canon EOS T6
Videography	Recording with Canon EOS T6 and editing with Adobe Premiere Pro
Adobe CC	Creating content and editing with Photoshop and Premiere Pro
